

# HAMPTON, PHOEBUS AND OLD POINT.

## NEW ROAD NAMED BY SUPERVISORS

Highway Connecting Hampton and Newport News to be Known as "Kechoughtan."

The new stone road, which has been completed as the connecting roadway between Hampton and Newport News, was yesterday officially named "Kechoughtan Road" by the board of supervisors of Elizabeth City county, which met in monthly session at the courthouse. The name selected is most appropriate, as Hampton was first known as Kechoughtan before John Smith and his party dropped anchor here.

The road is said to be one of the best highways in the state.

The supervisors also decided to accept all portions of Greenbrier avenue, which have been dedicated to the county, but the county authorities will not work the avenue until all the rights of way have been officially admitted to record.

Mr. Thomas Jones, a member of the board, was designated a committee of one to permit the Newport News Light and Water Company to construct mains along the new stone road bed. Mr. Jones will have to pass upon the distance the pipes must be from the road bed.

The contract for supplying the county poor house with subsistence for the coming quarter was awarded to Mr. R. C. Lee, whose bid was \$113.50.

**League Directors Meet Tonight.**  
The board of directors and the managers of the several teams in the Virginia Peninsula League will meet in the Young Men's Christian Association this evening to adopt the schedule for the coming season. It is also thought that the directors will elect the official umpires and possibly finish the arrangements for opening the season on May 7.

Manager McAllister announced last night that "Kid" Lewis, who is said to be in fine trim, will probably reach the city today and be in the box for Hampton tomorrow afternoon. Collier will cover third sack. The complete line-up for the games have not been announced.

Tomorrow afternoon the officers' team of the fleet will play the Crabbers, when a fast contest may also be looked for. The club has several of the former stars from the Naval Academy on the team.

## STREET SPRINKLING AND LIGHTING TO COME UP

Finance Committee to Consider These Measures at the Meeting This Evening.

When the finance committee of the city council meets this evening to take up the budget for the coming year two important matters will come before the committee. The question of sprinkling the streets and that of illuminating Queen street will be the measures and both are of considerable importance to the business men. That the streets should be sprinkled twice a day during the heated months is acknowledged on all sides and it is expected that the committee will make provision for this.

The matter of lighting Queen street will be considered and it has been suggested that the illumination can be had by placing in a number of additional lights and doing away with the five big arch lights. The smaller electric lights, it is said, will afford better illumination by stringing them at closer intervals, such as was done during the recent fireman's convention.

Queen street is the business thoroughfare of the city and it has long been the hope of the Hampton people to see the street properly illuminated at night.

The necessity of having the streets sprinkled is apparent and there seems to be no doubt but what the finance committee will meet the issues and let the budget contain appropriations for these important measures.
